### **Why Tajikistan?**

Tajikistan is a major producer of cotton, and has a millennial textile culture, being on the ancient Silk Road.

### **Why the integrated supply chain?**

Carrera is a company that has always been sensitive to environmental issues;

Carrera's integrated supply chain in Tajikistan helps reduce the greenhouse effect because there is no movement of trucks between the various stages, the saving in terms of CO2 emissions is equivalent to the emission of more than 6.000 cars!

### **Why hand-picks cotton?**

Hand-picking cotton is kinder to the fibre and sustainable for the environment, because no chemicals are used to speed up the ripening process; hand-picking cotton allows the best flowers to be selected only when they are ripe.

DE

### **Warum Tadschikistan?**

Tadschikistan ist ein wichtiger Produzent von Baumwolle, und hat eine jahrtausendealte Textilkultur, da es an der alten Seidenstraße liegt.

### **Warum die integrierte Lieferkette?**

Die ganzheitliche Lieferkette von Carrera in Tadschikistan trägt zur Verringerung des Treibhauseffektes bei, da keine Lkw-Bewegungen zwischen den einzelnen Produktionsschritten stattfinden. Die Einsparung an CO2-Emissionen entspricht dem Ausstoß von mehr als 6.000 Autos!

### **Warum Baumwolle von Hand pflücken?**

Die Handpflückung von Baumwolle ist schonender für die Faser und nachhaltiger für die Umwelt, da keine Chemikalien eingesetzt werden, um den Reifeprozess zu beschleunigen; die Handpflückung von Baumwolle ermöglicht es, die besten Blüten erst dann auszuwählen, wenn sie reif sind.

### **Perché il Tagikistan?**

Il Tagikistan è un grande produttore di cotone, e ha una cultura tessile millenaria trovandosi sull'antica Via della Seta.

### **Perché la filiera integrata?**

Carrera è un'azienda da sempre sensibile alle tematiche ambientali;

la filiera integrata di Carrera, in Tagikistan, contribuisce a ridurre l'effetto serra perché non c'è movimentazione di camion tra le varie fasi, il risparmio in termini di emissioni di CO2 equivale all'emissione di oltre 6.000 macchine!

### **Perché la raccolta a mano del cotone?**

La raccolta a mano del cotone è più delicata per la fibra e sostenibile per l'ambiente, perché non si usano prodotti chimici per accelerarne la maturazione; la raccolta a mano del cotone permette di selezionare i fiori migliori solo quando sono maturi.

IT

### **Pourquoi le Tadjikistan?**

Le Tadjikistan est un important producteur de coton, et possède une culture textile millénaire, étant sur l'ancienne route de la soie.

### **Pourquoi la chaîne d'approvisionnement intégrée?**

Carrera est une entreprise qui a toujours été sensible aux questions environnementales;

La chaîne d'approvisionnement intégrée de Carrera au Tadjikistan contribue à réduire l'effet de serre parce qu'il n'y a pas de déplacements de camions entre les différentes étapes ; l'économie en termes d'émissions de CO2 équivaut à l'émission de plus de 6.000 voitures!

### **Pourquoi cueillir le coton à la main ?**

La cueillette manuelle du coton est plus douce pour la fibre et durable pour l'environnement, car aucun produit chimique n'est utilisé pour accélérer le processus de maturation ; la cueillette manuelle du coton permet de sélectionner les meilleures fleurs uniquement lorsqu'elles sont mûres.

# FW 2022 Collection Fabrics / Tessuti Collezione FW 2022

... the technology is Italian, Carrera fabrics are born with a big heart, the "Cotton Heart".

For Carrera only the longest and softest fibers of the cotton flower become "Cotton Heart" yarn, to give the product a softness and superior comfort ... because this is our philosophy.
